

Centers Interaction

- Do we have gaps in services?
- Is there unnecessary overlap?
- Can we better use the full power of the MMPC project through strategic referrals?

Gaps

- Requests for services we cannot accommodate?
- Emerging trends?

Overlap between Centers

- Are there under-utilized services offered by multiple Centers?
- Should such services exist should we divert to one designated Center?

Strategic Referrals

- Knowing how to direct investigators
- Enhancing Centers interaction
- Referrals before first Center contact (help at www.mmpc.org) and referrals from one Center to another.
